

### PERFORMANCE TUNE-UP KITS

Everything you need to “wake up” your stock Chevy, Olds, Pontiac, Cadillac or Buick distributor. Kits include street-strip 4-pin module and coil combination, premium rotor and cap, custom Flame-Thrower coil cover, adjustable vacuum advance canister, hi-performance advance kit, wire harness and capacitor, and complete installation hardware. “Race Only” tune-up kits bring HEI equipped circle track or drag race engines back to life. These kits include matching coil and module, wiring harness, vacuum lock out, advance weights, springs, bushings, cap, rotor, dust shield, and necessary hardware.

Description	Black	Red	Blue
Chevrolet and Cadillac V8 (red/yellow wire coil)	D8000	D8001	D8002
Buick, Oldsmobile, Pontiac and Corvette (red/white wire coil)	D8010	D8011	D8012
Race Only Tune-Up Kit	D8070*	D8071*	

### CAPS, ROTORS AND DUST COVERS

Made from hi-performance 60 KV rated alkyd molding compound for superior protection from “arc-thru” and cross-fire. Our cap and rotor kits include nylon rotor hold-down screws. Flame-Thrower dust covers provide a larger air gap around the coil which provides cooler operating temperatures.

Description	Black	Red	Blue
Distributor cap and rotor kits	D4000	D4001	D4002
Distributor cap	D4050	D4051	D4052
Distributor rotor		D4061	D4062
Dust cover with Flame-Thrower script	D9000		
Distributor cap late model EST	D4150	D4151	
Distributor rotor late model EST	D4260		

### WIRING HARNESS AND CAPACITOR

Premium quality wire harness and capacitor insure good connection and “static free” operation.

### MECHANICAL ADVANCE CURVE KIT

Precision machined chromoly weights and center plate eliminate erratic timing. Three sets of springs, guide bushings and complete installation instructions make recurving your distributor easy.

### VACUUM ADVANCE & LOCKOUT

These vacuum canisters help optimize ignition advance for maximum part throttle performance and cruise speed efficiency. Our vacuum lockout plates allow for precise pickup coil position and accurate rotor phasing.

### BRONZE DISTRIBUTOR GEAR

Made from superior quality bronze aluminum and precision CNC machined to provide smooth consistent operation while reducing wear to your camshaft.

Description	Part #
Wiring harness and capacitor	D9007
Adjustable vacuum advance canister	D9006
Clockwise vacuum lockout	D9010*
Counter clockwise vacuum lockout	D9011*
Mechanical advance curve Kit	D9001
Bronze gear Chevrolet SB and BB engines 0.491 shaft	D6001

**NEW**

**PERFORMANCE IGNITION MODULES**

Our performance ignition modules are direct replacements for popular GM and Ford electronic distributors. These modules provide enhanced high RPM performance and when used with their corresponding Flame-Thrower coil, increase spark plug voltage by more than 40%.

**FEATURES**

- Thick film technology on alumina ceramic substrates removes heat for greater accuracy and improved reliability.
- Laser trimming gives precise peak current control for increased energy output.
- Each module is tested twice with automated equipment to insure trouble free operation.
- Legal in all 50 states and Canada. ( C.A.R.B. E.O. #D-57-22)\*
- Limited One Year Warranty.

\* Race Only modules are not legal for sale or use on pollution controlled motor vehicles
